Our Bulbs this season have been selected with great care from the very best growers. There are Hyacinth specialists from whom we order almost exclusively Hyacinths, Tulip specialists from whom we order Tulips, and so on all through the line. Our stock this year is one of the largest, most complete and best we ever had, and your usual kind order is solicited.

All prices include packing, duty and custom house fees and delivery to any boat, express or freight line in Philadelphia.

**NEW CUSTOMERS.** Those who have not yet dealt with us, we would say that an opportunity to serve you in any thing in our line would be appreciated. We're confident that it would only be the beginning of an extended period of dealings.

Gentlemen:—In general, I do not praise the quality of any article purchased, when the best quality is ordered, but in the case of the quality of the Hyacinths, Tulips, Daffodils, etc., furnished the city by you, I feel the merits of the bulbs demand an exception to this rule. The display in all the parks and squares is now at its zenith, and I cannot refrain from blending my sentiments with the thousands of daily witnesses who voice the same by saying "they are the best yet."

I cannot now go into details, but suffice it to say, the display is "par excellence" in every particular.

# EASTER LILY BULBS

**EASTER 1907**  
**MARCH 31st**

Photograph of a house of MICHELL'S "SPECIAL STOCK" JAPANESE LILIAM MULTIFLORUM taken this year at the Greenhouse Department of the West Laurel Hill Cemetery Co., West Laurel Hill, Pa. Last year they had 3000 Bulbs of our Special Brand Lilies. This year the order was greatly increased.

## LILIAM HARRISII (Michell's Special Brand)

MICHELL'S SPECIAL BRAND EASTER LILY BULBS are far superior to the usual grade of stock imported. They are especially grown for us by the most reliable grower, whose stock we can always rely upon. Thus we can insure you of getting bulbs as free from disease as it is possible to get them. We lay special stress on our SPECIAL BRAND (not only by name, but by actual test). Every florist who has grown them pronounced them absolutely dependable. Produced by special selection of only the finest looking and best matured bulbs. No blind ones. There is usually a limited supply of these and we advise all wishing to book their orders for some of this grade to place it at once.

## LILIAM LONGIFLORUM MULTIFLORUM

(MICHELL'S SPECIAL STOCK)

Ready in October

**SPECIAL NOTICE**—We would draw your particular attention to our Special Stock or Brand of Japanese Lilies. You will be well repaid by planting them; the slight advance in cost is trifling compared with the general results you will obtain.

This is the strain which has produced such surprisingly good Easter Lilies for the past years. Hardly a bulb fails to give a free flowering perfect plant.

## A FEW TESTIMONIALS

Kearneysville, W. Va., July 14, '06.  
American Horticultural Distributing Co.,  
Martinsburg, W. Va.

Gentlemen:—I have used your preparation for destroying San Jose Scale and other enemies to the apple and can say I am so well satisfied that I expect to continue its use. Two years ago my orchard, consisting of about one hundred acres of winter apples, was infested with San Jose Scale. Inspected and infested trees tagged by experts sent out by the Experiment Station of Morgantown, this State, last fall when we gathered the crop of fruit not a single tree was found with scale thereon. I applied the Scale Destroyer again this spring, March 1906. On examining the trees yesterday, July 13th, I find the entire orchard free of scale and the trees (and foliage in first-class condition, with prospects of an abundant crop of apples.

Very truly yours,

D. W. BORDER.

Fort Valley, Ga., August 1, '06.  
American Horticultural Distributing Co.,

Dear Sirs:—I used your Target Brand Scale Destroyer on peach trees last winter, and it gave me perfect satisfaction at a strength of one to twenty. In my opinion it is better, easier to apply and cheaper than the Lime-Sulphur Wash and does not injure the trees in the slightest. I shall use it again this winter.

GEO. H. ENGLISH.

### "FANCY FRUIT FARM."

South Haven, Mich., 7-16-'06.

Gentlemen:—Target Brand is O. K., we spray with half the expense and time as the Sulphur-Wash. The other fellows laugh at us, but WE SPRAY FOUR BARRELS while they SPRAY ONE in the same time from start. and Target Brand does as good work as the Sulphur-Wash. We never have sore hands nor sore horses, and not only that, the wash spoils harness, pumps and hose, and clogs up fiercely.

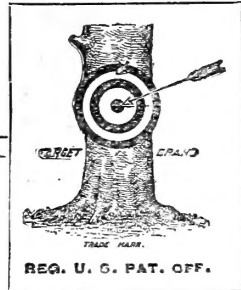

On young trees we spray only on one side, as the Target Brand works around the limbs where wash does not. In every way we want all to know that to be up-to-date use Target Brand Scale Destroyer.

Scale has destroyed most one-half the trees about this locality.

Wishing you success,

Respectfully,  
(Signed) J. M. SONTAG, Prop.

# WHAT IS "TARGET BRAND" SCALE DESTROYER?

---

HIS preparation has been compounded with a view to give the fruit grower and others who desire to spray, every possible advantage possessed in soluble oils. In making T. B. S. D. there is not one drop of crude oil used, consequently it possesses none of the dangerous qualities of the latter.

Target Brand Scale Destroyer dilutes readily in any water, has a milky appearance and is positively neutral. It CANNOT PENETRATE THE TREE, nor can it injure the most delicate growth. It kills the scale by suffocation and not by penetration, as in the latter process the tree suffers.

It has no caustic action, will not injure hands, clothing, eyes, body or spraying apparatus, and the results are evident 4 to 6 weeks after its application.

In dilution it is very economical — covering just one-third more space when applied than lime, sulphur and salt, and it likewise covers more space than most other oil preparations.

---

## DILUTION

In winter and early spring 1 gallon T. B. Scale Destroyer to 20 gallons of water; late spring 1 gallon T. B. Scale Destroyer to 25 gallons of water; summer 1 gallon T. B. Scale Destroyer to 40 gallons of water.

# TO-BAK-INE LIQUID

**A Concentrated Solution of Pure Nicotine, for  
SPRAYING or VAPORIZING. Free from Ammonia**

**Cost of Spraying**—To kill Green and Black Fly, Thrip, Aphis, etc., it requires only one to two teaspoonfuls, and for Red Spider and Mealy Bug three to four teaspoonfuls to a gallon of water, making the cost only 1 ½ to 6 cents per gallon.

**For Fumigating**—This liquid may be vaporized by placing the required quantity (one ounce is sufficient for 2,000 to 6,000 cubic feet) in a shallow pan and heating by means of an alcohol lamp or otherwise. It can also be vaporized on your steam pipes by applying with a soft paint brush, using the quantity as above.

Narcissus Von Sion, True Double "Telemonius"

Our strain of Von Sion Narcissus are reputed to be the finest that are imported. They are absolutely free from the green tipped flower sort which are usually procured from elsewhere than Holland at a lower price.

Horsfieldi Bicolor Narcissus (see page 10)

These bulbs come into bloom just after the Easter crop of flowers have become exhausted, being entirely distinct (somewhat) from the flowers used then. They find a ready sale on the market as cut flowers. Most any ordinary plot of ground will do for their cultivation, they requiring hardly any attention, being left outside from year to year undisturbed. They prove a permanent investment, yielding handsome returns.

**Single Mixed.** 12c. per doz.; per 100, 70c.; \$5.50 per 1000.

**Double Mixed.** 15c. per doz.; per 100, 75c.; \$6.50 per 1000.

## FRENCH TRUMPET MAJOR NARCISSUS

These bulbs, while smaller than the Dutch grown stock, are wonderfully adapted for early forcing. They may be had for Christmas with a little extra care, thus bringing a price far in excess of what they would a month later. Be sure and include some in your order. Single, pure yellow. **Price:** 30c. per doz.; per 100, \$1.50; \$13.50 per 1000.

These are now one of the most profitable bulbs for the florist. Very easily grown and always find a ready market. (Do not compare these with smaller size or Italian grown, which are on the market at low prices.)

1250 Bulbs in each case

\$1.10 per 100; per 1000, \$9.00; \$43.75 per 5000; per 10000 \$85.00

*Poeticus or Pheasant's Eye (Hardy Narcissus)*

## CHINESE LILIES

(Ready in October)

*Chinese Lilies*

Our importation of these includes some of the finest and largest bulbs produced; making contracts direct with the grower we are enabled to offer you the finest bulbs at the lowest figures. Price: \$1.25 per basket of 30 bulbs; per bale of 4 baskets, \$4.50; \$35.00 per 1000.

Show Card Free with all orders for a basket or more.

**PEBBLES FOR CHINESE LILIES.** Put up in quarts. 35c. per doz. quarts; \$2.75 per 100 quarts (50 at 100 rate).

## NARCISSUS POETICUS

The Poets Narcissus are grand for cut flowers; they are fragrant and very attractive.

**Poeticus.** Suitable for outdoor planting only, blooming in May; white, scarlet eye. 10c. per doz.; per 100, 50c.; \$4.00 per 100.

**Poeticus Ornatus.** Very desirable for forcing; larger and two weeks earlier than the above if used outside; color white, scarlet eye. 12c. per doz.; per 100, 65c.; \$5.50 per 1000.

**NEW FREESIA "Purity" (Fisher's Own Growing.)**  
*Ready in July.* We made early arrangements with the originator of this valuable new Freesia. This variety exceeds by far any Freesia ever offered; it is of a *Snowy Glistening* white color, borne on stout wiry stems, two feet in length, it is said by those who have seen it that a bunch cut and placed in water will give the same effect as roses or carnations, so gigantic are the blooms, besides the main stalk it throws up a number of side shoots well covered with buds.

# MICHELL'S LILY OF THE VALLEY

READY IN NOVEMBER

## TESTIMONIAL

*I'm bound to tell you of the great success I had with Valley purchased of you. They were the best I ever grew. Your RUSSIAN VALLEY is, in fact, the best I ever handled. They produced immense spikes.*

L. S.  
Harrisburg, Pa.

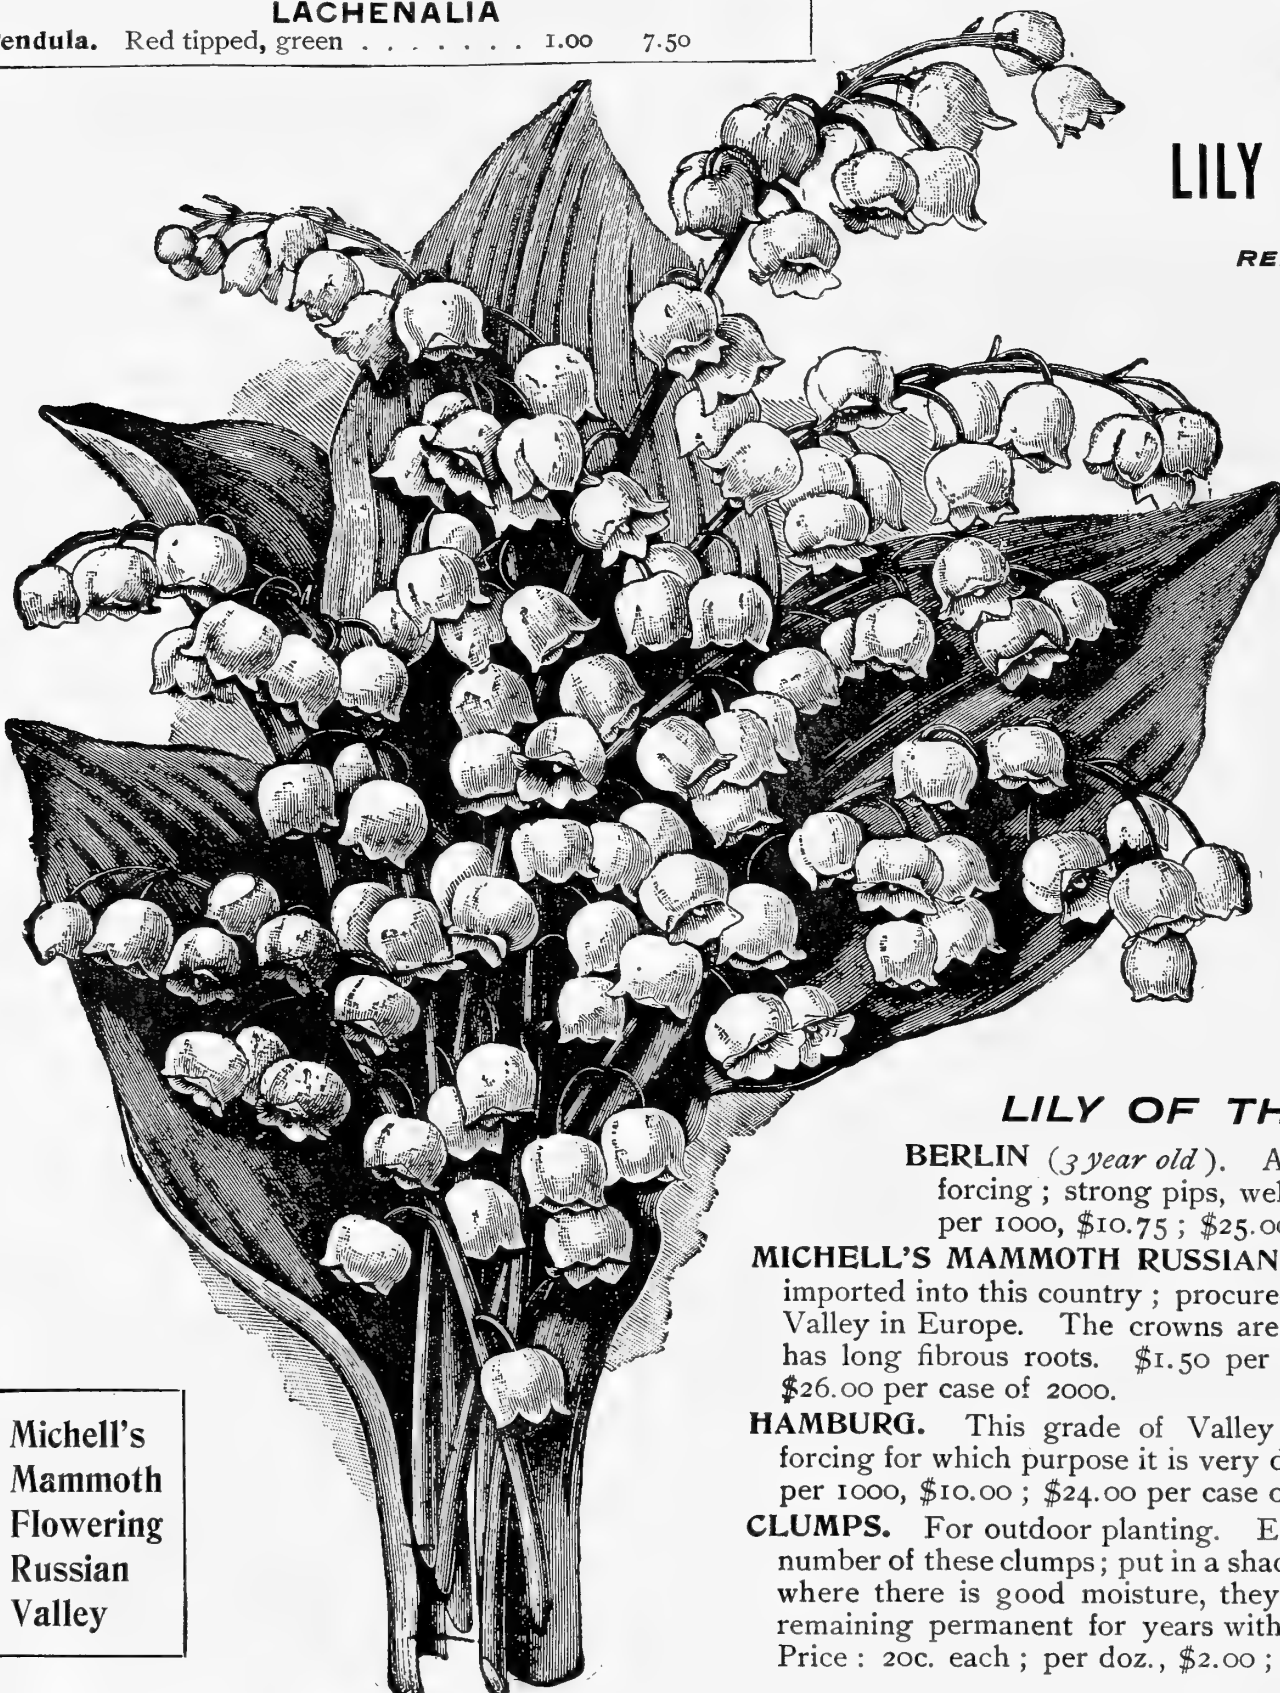

## LILY OF THE VALLEY

**BERLIN** (3 year old). A very fine grade for early forcing; strong pips, well rooted. \$1.25 per 100; per 1000, \$10.75; \$25.00 per case of 2500.

**MICHELL'S MAMMOTH RUSSIAN.** This Valley is the finest imported into this country; procured from the best grower of Valley in Europe. The crowns are extra fine and each one has long fibrous roots. \$1.50 per 100; per 1000, \$14.00; \$26.00 per case of 2000.

**HAMBURG.** This grade of Valley is used largely for late forcing for which purpose it is very desirable. \$1.15 per 100; per 1000, \$10.00; \$24.00 per case of 2500.

**CLUMPS.** For outdoor planting. Every florist should plant a number of these clumps; put in a shaded position in the garden, where there is good moisture, they will bloom satisfactorily, remaining permanent for years with practically no attention. Price: 20c. each; per doz., \$2.00; \$15.00 per 100.

**OXALIS**

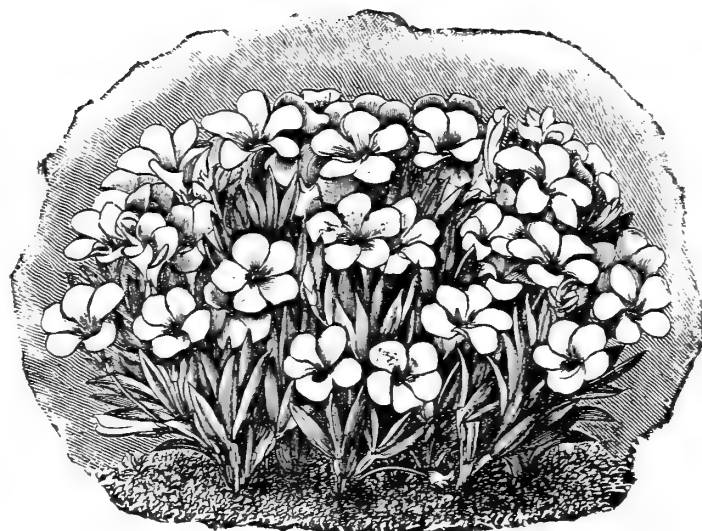

The bulbs are very salable, either in a store as bulbs or growing in pots or baskets. The Grand Duchess varieties are the latest acquisition in the Oxalis class and every florist will find them profitable to grow, they making an exceedingly compact pretty plant. They are better for pot culture than any variety. Flowers measure one inch in diameter.

**PÆONIES** (*Ready in November*).

We have a fine large importation of these, due to arrive in November. The pæony is becoming more and more a universal cut flower; they are constantly being improved upon; they sell well in any market when they are in bloom, and in view of the small expense at which they can be maintained every florist should plant a quantity of them. The separate colors are desirable.

**SCILLA SIBERICA**

Very pretty blue flowering bulbs; blooming almost as early as snowdrops, to which they make a striking contrast. Color a beautiful light blue; fine for planting in borders or around beds as an edging.

Price: 15c. per doz.; per 100, \$1.00; \$8.00 per 1000.

*Scilla Siberica.**Double Pæony.***SNOWDROPS**

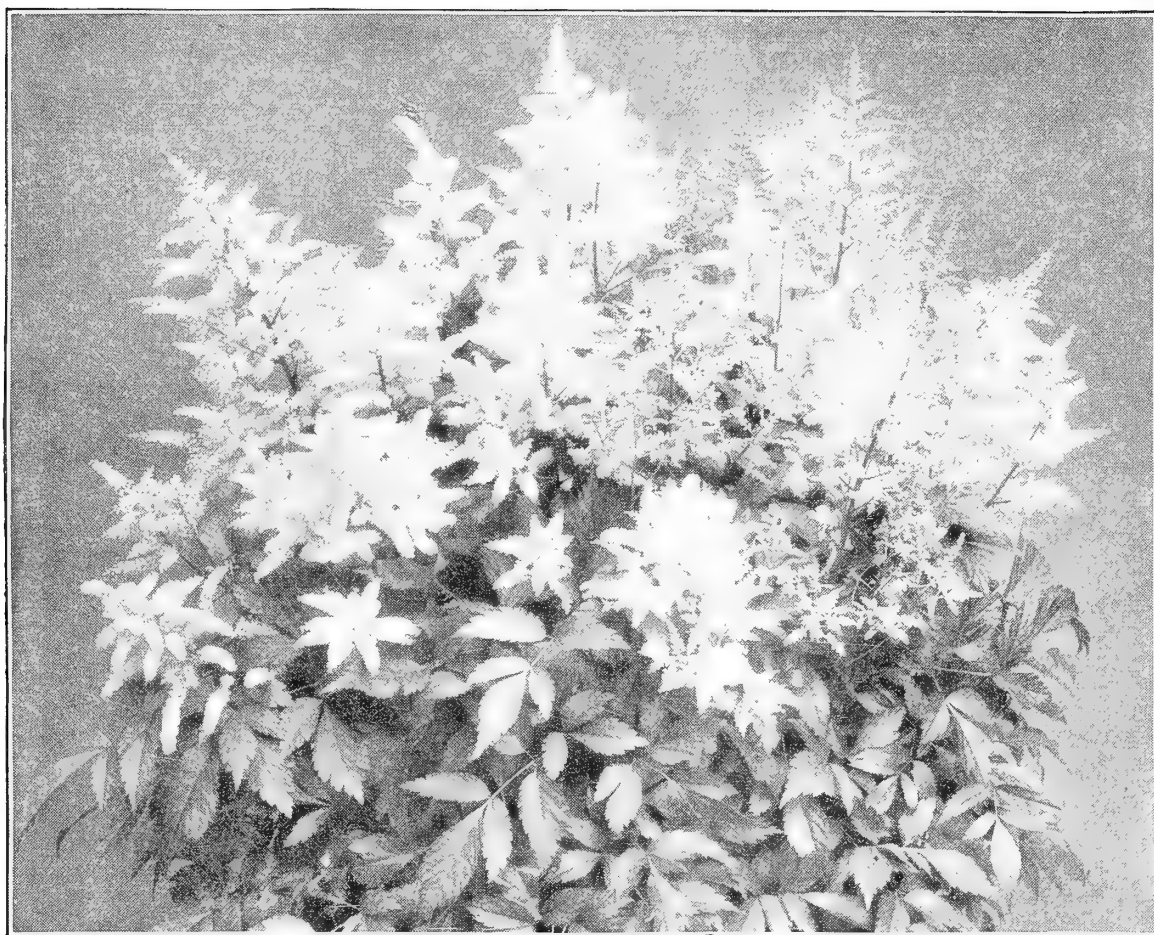

Where one has a store or jobbing trade, these bulbs are indispensable for bedding purposes. Of a pure white color; very attractive. They should be planted in masses or clumps, as they do not make a good show if planted otherwise.

Mushrooms from Michell's Pure Culture Mushroom Spawn.

**TESTIMONIAL.**—Send us at once 200 lbs. Michell's Mushroom spawn. We have bought from several parties but it always proves a rank failure, the only spawn that we have found to be any good is that shipped by you.

L. V. R. G., Jamestown, N. Y., Jan. 25th, 1905.

MICHELL'S  
SUPERIOR MUSHROOM SPAWN

**ENGLISH BRAND.** Made by the same party who manufactured for us when we first embarked in the seed business. He has upheld his reputation as a first-class spawn maker and thus made our name prominent among the largest mushroom growers throughout the country. Price: 15c. per sample brick (postpaid 25c.); per doz. bricks, \$1.40; \$6.00 per 100 lbs; per 1,000 lbs, \$55.00; (250 lbs. or over at 1,000 lb. rate).

**PURE CULTURE BRAND.** This is a new American creation. Our orders booked and so far filled have been numerous, indeed the demand is greater almost than the supply. We are representing the most reputable maker of **American Pure Culture Spawn**, of which the chief merits are larger and more abundant mushrooms, almost pure white in color and earlier bearing, than those produced from English spawn. (100 bricks weigh about 175 lbs.) Price per sample brick, 20c.; \$1.80 per 12 bricks; 25 bricks, \$3.75; \$7.00 for 50 bricks; 100 bricks \$13.50; \$115.00 per 1000 (250 at 1000 rate.)

## MICHELL'S CELEBRATED GRASS SEED MIXTURES.

**Michell's Non-Superior Evergreen Lawn.** Too well known to need description. We have a national reputation on this grass formula. The BEST LAWN GRASS SEED that exists for general use. Sow 4 bushels per acre on new lawn, or 2½ bushels in re-seeding old lawns (20 lbs. per bu.) 18c. per qt.; 2 qts., 30c.; 50c. for 4 qts.; Peck 8 c.; \$3.25 per bu.; (5 to 10 bu. at \$3.15 per bu.)

**Michell's Shaded Lawn.** Difficulty is frequently experienced in establishing a lawn where shade and trees exist. Will never fail if properly sown (20 lbs. per bu.) 18c. per qt.; 2 qts., 30c.; 50c. for 4 qts.; Peck 9 c.; \$3.50 per bu. (5 to 10 bu. at \$3.35 per bu.)

**Fairmount Park Lawn.** A very fine mixture indeed meeting the requirements of those desiring a moderately priced grass seed. Sow 4 bushels to the acre on new land or 2½ bushels on old lawns (15 lbs. per bu.) 10c. per qt.; 4 qts., 35 cts.; 60c. per peck; \$2.10 per bu. (5 to 10 bu. at \$2.00 per bu.)

**Evergreen Grass with no Clover.** Many people do not like white clover in a lawn (20 lbs. per bu.) 18c. per qt.; 2 qts., 30c.; 50c. for 4 qts.; peck 85c.; \$3.25 per bu. (5 to 10 bu. at \$3.15 per bu.)

**Michell's Seashore Formula.** The salt atmosphere plays havoc with the seashore lawn, and unless the proper formula of seed is sown trouble is sure to come. Sow 4 bushels to the acre on new ground or 2½ bushels for re-seeding old lawns (20 lbs. per bu.) 18c. per qt.; 2 qts. 30 cts.; 50c. for 4 qts.; peck 85c.; \$3.25 per bu. (5 to 10 bu. at \$3.15 per bu.)

**Michell's Terrace or Embankment.** A serious problem that always confronts the gardener after a rainstorm is the replacing of washed-out places in the terraced lawn. Compounded especially for this purpose. Sow at the rate of 4 bushels per acre (20 lbs. per bu.) 18c. per qt.; 2 qts., 30c.; 50c. for 4 qts.; peck 85c.; \$3.25 per bu. (5 to 10 bu. at \$3.15 per bu.)

**Michell's Golf Course.** There's no dread of defeat on the fair greens or links where this seed is sown. No obnoxious growth to obstruct the rolling of the ball. Sow 5 bushels per acre (15 lbs. per bu.) 10c. per qt.; 4 qts., 35c.; 60c. per peck; \$2.10 per bu. (5 to 10 bu. at \$2.00 per bu.)

**Michell's Putting Greens.** This is a new mixture of our own; made up especially from such grasses as will grow very short and make a solid surface to withstand heavy wear (20 lbs. per bu.) 18c. per qt.; 2 qts. 30c.; 50 cts. for 4 qts.; peck 90c.; \$3.50 per bu. (5 to 10 bu. \$3.35 per bu.)

**Lawn Tennis and Polo Field.** The game can be enjoyed much better when the proper grass (where grass is still used on tennis courts) is under foot. Sow 4 bushels per acre on new lawn or 2½ bushels on old lawns (partially covered with growth) (20 lbs. per bu.) 18c. per qt.; 2 qts. 30c.; 50c. for 4 qts.; peck 85c.; \$3.25 per bu. (5 to 10 bu., \$3.15 per bu.)

### GRASS MIXTURES FOR FIELDS

**Michell's Permanent Pasture and Hay.** A composition of varieties of grasses best suited to the purpose. Sow 2½ bushels per acre on new land or 1½ bushel on old lands (20 lbs. to bu.) 15c. per qt.; 4 qts. 40c.; 70c. per peck; \$2.75 per bu. (5 to 10 bu. at \$2.50 per bu.)

**Exposition or Quick Growth.** When we had the National Export Exposition in Philadelphia in 1899, the landscape contractor agreed to furnish a lawn with grass growing on it in four weeks. He came to us and we solved the problem (15 lbs. per bu.) 10c. per qt.; 4 qts. 35 cts.; peck 55c.; \$2.00 per bu. (5 to 10 bu. at \$1.85 per bu.)

MICHELL'S Celebrated Grass Seeds have a national reputation for purity.
